

# Are you prepared for a cyber attack?

## The best way to make sure your sensitive business data is protected from cyber criminals is to be prepared

- ▶ Do you have effective password management policies in place in your business? YES  NO
- ▶ Do you have an incident response plan with clear roles and responsibilities for your team? YES  NO
- ▶ Are you looping your entire organisation into your cyber response plan? YES  NO
- ▶ Are you meeting with employees on a regular basis to ensure your response plan is effective? YES  NO
- ▶ Are you refining your plan along the way? YES  NO
- ▶ Are you documenting all response efforts from beginning to end? YES  NO
- ▶ Are your employees receiving regular cyber security training and phishing simulations? YES  NO
- ▶ Do you have effective password management policies in place in your business? YES  NO
- ▶ Does your Disaster Recovery strategy cover a cyber attack? YES  NO

If you answered NO to any of these questions, then it may be time to upgrade your cyber security strategy. Our team of security experts are here to support your business 24x7x365 to ensure that no matter what type of threat enters your network, we can help keep your business secure.
