

ENVIRONMENTAL (Green) POLICY

The management and all who work at DSI Ltd are committed to the care of the environment and the prevention of pollution.

The organisation ensures that all its activities are carried out in conformance with the relevant environmental legislation.

(The organisation operates processes which are prescribed under the Environmental Protection Act 1990: Part 1, and observes the requirements laid down by County Council and the Environment Agency.)

The organisations objectives are to minimise waste arising, promote recycling, reduce energy consumption, reduce harmful emissions and, where possible, to work with suppliers who themselves have sound environmental and sustainable sources policies. DSI seeks opportunities to continually improve its environmental impact.

Sustainable Travel Policy. DSI supports green transport and that's good for people and the planet. That means better public transport, lower train fares and less traffic. As DSI Ltd. is located in the South East. Public transport, National rail, are readily available. It is Datrix's Policy that all travel, where possible is uses the public transport facilities.

An essential feature of the environmental management system is a commitment to continually improving environmental performance. This is achieved by setting annual environmental improvement objectives and targets which are regularly monitored and reviewed. The objectives and targets are publicised throughout the organisation and all staff are committed to their achievement.

The most significant aspect of impact on the environment of DSI 's responsibilities is the use of paper, printing cartridges and packaging wastes. Information on this and other impacts is available on request.

In order to ensure the achievement of the above commitments, the organisation has implemented an environmental management system consisting of regular review,

Real People.
Making a Real Difference.
