DSI Oracle Solaris Managed Service

The primary challenge businesses face with their Solaris environments is the lack of skilled Solaris personnel, which consumes substantial resources. Imagine the benefits of reallocating these resources to more lucrative projects.

At DSI, we empower our customers to reduce costs, enhance business agility, and streamline their Solaris environments through our comprehensive managed service solutions. Our innovative approach to managing Oracle/Solaris environments is tailored to meet your specific needs, ensuring seamless scalability and effective resolution of day-to-day challenges.

With Solaris 11.x, DSI offers enterprise-class support and industry-leading components for the latest operating system. Our services cover every aspect of Solaris management, ensuring your infrastructure runs smoothly and securely.

DSI Oracle Solaris Managed Service

DSI provides expert support and administration for your Solaris infrastructure, including:

- **Comprehensive Support**
  Administration of Solaris versions from 2.5 to 11.x
- **Security**
  Patch installation and security updates
- **Performance Optimisation**
  Performance tuning for kernel and services
- **Troubleshooting**
  System troubleshooting and debugging
- **Virtualisation**
  Virtualisation and consolidation of both legacy and current Solaris environments, utilising on-premises, hybrid, or full cloud strategies

Our Solaris Managed Service offers a broad spectrum of support and administration services. Whether you need assistance with single per-incident projects or require full-scale enterprise administration and outsourcing for Oracle/Sun-Solaris server environments, DSI has you covered.

Key benefits of DSI's Solaris Support Services

Our Solaris support service has several key benefits:

▶ **Reduced costs**
Our Solaris service is designed to minimise ongoing IT expenses. Enjoy peace of mind as we create a more cost-effective support environment for your business.

▶ **Increased business agility**
Our Solaris service enables your business to swiftly adapt to market changes. With flexible and scalable support services, we ensure that you remain agile in a dynamic business landscape.

▶ **Reduced business risk**
At DSI, we take full responsibility for your Solaris environment, working diligently to ensure your systems run efficiently. We provide ongoing performance analysis and recommendations to keep your operations smooth and reliable.

▶ **Scalability**
Our Oracle/Solaris managed service is designed to grow with your business. We have the support infrastructure necessary to manage your environment effectively, even during periods of extreme load, ensuring planned management and IT compute growth.

DSI Oracle Solaris Managed Service
