

# Introducing Quantum Azure V3

## Redefining the future of Cloud Optimisation

**Quantum Azure V3 builds on existing capabilities in Cloud visibility and actionable insights to make it even easier to drive down and manage your Azure spend and security. Quantum Azure delivers a 360-degree view of all your Azure Cloud spend in a single, easy to use interface.**

### Features

- Refreshed look and feel in a new simplified interface
- Role based persona menus aligned to the FinOps model, tailored to meet key stakeholders reporting needs
- Favourites; build a 'favourites' page to list your most accessed reports
- In Platform Tutorials and learning, embedded videos and pop outs allow for greater autonomy, opportunities to learn
- New Search engine; find exactly what they're looking for from any page
- More Data Points; providing data to drive all your cloud decisions

### Benefits

- ▶ Easier to navigate dashboards to get to the insights that matter most to you
- ▶ Menus aligning to the FinOps model, address the different needs of different stakeholders
- ▶ Saving reports as favourites saves time and ensures consistent reporting
- ▶ Work autonomously and more effectively with an easier to navigate platform, find the right information instantly
- ▶ A wider range of data sets means Kubernetes, Marketplace and SQL synapse consumption can be tracked and managed effectively

### Value

- **Spend Less:**  
It is easier to get information about your cloud spend and quicker to visualise cost savings
- **Plan Better:**  
The data you need to make it informed decisions at the right time is at your fingertips
- **Manage:**  
Alignment of Costs with business stakeholders makes managing budget simpler and gain insights into unexpected cost increases down to resource level

## Cloud Essentials Commercial Optimisation (CECO) Services

If you have neither the resource or time to manage your Azure spend yourself, our team of FinOps experts can do it for you as part of our CECO service. Our team use Quantum Azure providing reports and key recommendations aligned to your business strategy to support your Azure Cost Management, making it even easier to manage your cloud spend.

### Security

- We've improved the security dashboards in V3, empowering you to become the guardians of your Microsoft investments
- Monitor the Azure Health status across all Regions
- Visibility of any platform problems affecting your resources
- Monitor Azure Policies for compliance
- Visibility of Blue Prints and Secure Scope

### We are keeping all the features you love:

- Rule-based recommendations engine providing detailed optimisation opportunities to procure reserved capacity and right-size your architecture to drive down cost
- Smart Tagging allows you to group resources by Cost Centre, Organisational unit, team, or by naming conventions. Supporting cross-charge and budget setting
- Forecasting modelling based on anticipated increases in consumption Secure Portal with AD for user Authentication Data replicated in UK Azure
